AMENDMENT AND RESPONSE UNDER 37 C.F.R. §1.111

Dear Sir:

This Response is being submitted in response to the Office Action dated November 20, 2002 relating to the above-identified application. Reexamination and reconsideration of said application are respectfully requested.

In the Claims:

Please add new claims 29-34 to read as follows:

29. (New) A high density audio/video input/output interconnection device comprising:

a high density connector block that includes a plurality of jacks disposed on an outer surface of the high density connector block including, a S-video input jack, a S-video output jack, a video input jack, a video output jack, at least one audio output jack and at least one audio input jack;

a high density connector commonly interconnected to the plurality of jacks; and,

a plug for stereo audio output interconnected to the high density connector for interface with a computer.

30. (New) The connector as recited in claim 29, wherein the plurality of jacks further include a digital video input/output jack.
